Escaped With His Life.

"Twenty-one years ago I faced an awful death", writes, H. B. Martin, Port Harrelson, S. C. "Doctors said I had Consumption and the dreadful cough I had looked like it, sure enough. I tried everything, I could hear of, for my cough, and was under the treatment of the best doctor in Georgetown, S. C. for a year, but could get no relief. A friend advised me to try Dr. King's New Discovery. I did so and was completely cured. I feel that I owe my life to this great throat and lung cure. GARBER.

We had a scare of rain Monday morning, but not enough to stop work.

that the showers two weeks ago would put everything out of danger, but the record hot weather has caused evaporation so fast that the corn is again in danger.

The Fourth was quietly observed at this place by looking at the flag and the trains go by, while down on the creek the young folks did the Highland fling until tired out in the mid-night hours.

J. J. Ross and wife of Yates Center Kansas, parents of J. K. Ross, came in on Monday before the Fourth and visited with their son until Friday when they departed again for their home. Mr. Ross is eighty-five years of age, an old soldier, and could be recognized as a brother of the postmaster instead of father, and seems good for several years yet.

A. Selken, postmaster of Smithton, Mo., and W. L. Jackson, of the same place, got off the train here Sunday and were met by Willfred Huckstep of Melva, and shown over the G. A. Atwood fruit farm. They were much pleased with the prospect, but on account of a press of business at home returned on the evening train. We hope to see them back again.

Frank Ramsey finished loading out our ties Monday needless to say the tie men are hit hard this year by culling, as many of the ties had been on the ground for over a year, and the depreciation from dry weather last fall and this summer was heavy.

Judge Branson came in for a good skinning on his cedar, as the pencil man caught the tie man's culling fever and left much cedar on hand for posts so between the two it seems that people who have timber to sell had better do something else for awhile. And corn chops going to \$1.00 a sack; corn meal to be had as a luxury, and potatoes to sell by the case like lemons the high living is just beginning.

Frank Goforth has taken the job of cutting one hundred cords of wood for Springfield parties.

Sid Ragsdale and Mr. Lambert of Swan, showed up near our place Sunday evening on one of their root hunting trips.

Our congratulations to Jesse Tolerton who always seems to win out, and now, boys, get your dollar ready.

Kill More Than Wild Beasts.

The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust, even food. But grand protection is afforded by Electric Bitters, which destroy and expel these deadly disease germs from the system. That's why chills fever and ague, all malarial and many blood diseases yield promptly to this wonderful blood purifier. Try them, and enjoy the glorious health and new strength they'll give you. Money back if not satisfied. Only 50c at A. H. Parrish's.

Obituary

Little Leelin Earl Rose, infant son of Mr. and Mrs. Robt. L. Rose, was born June 12 1910 and died June 14, 1911, of spinal meningitis after an illness of five weeks. Funeral services were conducted by Rev. Collins, and the body was laid to rest in the Branson cemetery.

The dear Lord seen fit to take him to himself. Oh, we loved him so dear, but the Lord giveth and the Lord taketh away; blessed be the Lord. We know He doeth all things well. Our dear baby was so bright and promising, we could hardly give him up, but in the Lord's work we must say amen. We know he can never come back, but we can live for God, and someday go to him. Parents be comforted. The Lord said his grace is sufficient, whosoever is faithful until death, God giveth everlasting life. The Lord says we shall know even as we are known, if so we will know our darling little one. There will be no tears; there will no night, but always shining bright where Jesus is the light, the rose that is sweetest and fairest is the bud that is killed by the frost, and the love that is truest, and rarest the true love that we have just lost.

Dedicated by loving Grandma.

Wants the Picnic.

Branson, Mo., July 13, 1911.

Editor Republican: In your paper of July 6 I notice the headline in bold type proposing a four days picnic.

Now my advice would be not to have a picnic or fair. It would cause the people to get together and have a good time; old friends that haven't met since the forest was planted would come and exchange ideas; young people might get acquainted and some time in the future resolve to go into partnership; old widowers and bachelors might make up their minds that single blessedness is not what it should be and make goo goo eyes at the widows and maids that are sure to come to a large gathering as proposed. Even myself, looking as I do, might be tempted to go simply to break the monotony of life and mix up with my brother hill billie and tell what may happen if such a thing as large gathering should be inaugurated and made a kind of an agricultural side line then the people could see what was being raised in Taney county. The people are always ready to go to any gathering if for no other purpose than only to see who goes; and they always have a good time. Pop corn balls and red lemonade will be in demand with ice cream on the side. Now don't encourage the people to much or they will be throwing bouquets at the promoters. There hasn't been anything doing for a long time, and to get out of the field would be a relief. It would give the ticks a rest and we could air our store clothes and look like town people. Anyway if you have a four days picnic, let her go, and I will come and look on and see how other people do and do likewise, provided it is right. Farmers want to go some place to get away from work and take a long rest. It has been very dry this summer so far and unless weather conditions change we will have to depend on mast for hogs and save the little corn that will mature for Johnny cake with sorghum 'lasses to keep soul and body together. That's all. Count me in.

32nd Degree Hill Billy.

There was a good rain in the Taneyville neighborhood last Sunday afternoon while we got only a small shower here. The prospects are for a pretty fair crop of late corn if the rain will come regularly now.
